

## Confirmation

Solar Keymark for ONOSI,  
Collectors ONS58-15, ONS58-18, ONS58-20, ONS58-24  
Haining Oupairineng Solar Water Heater Co., Ltd.

The solar thermal collector models **ONS58-15**, **ONS58-18**, **ONS58-20** and **ONS58-24** manufactured by Haining Oupairineng Solar Water Heater Co., Ltd. (ONOSI) in CN-314406 Haining City, are currently being tested at our test institute to get the European certification **Solar Keymark** as well as the **SRCC** certification for the United States. The collectors are tested under the SPF test numbers C1180, C1181, C1182.

Due to the bad weather conditions and the specific regulations that apply for the certification, the test procedure is delayed.

So far no technical problems have appeared that would impede the certification.
